Brussels, March 2022

Dear Commissioner,

Let me once again express its utmost importance of Your daily activities and appreciate Your team's commitment to tackle extra emergency situation in regards with humanitarian consequences of unjustified wide-scale russia's military aggression against Ukraine.

In this context, I would like to convey a request from the Kyiv City Military Administration, which includes items for effective protection of the Kyiv population from further russian aggressive stage. All those items in the mentioned request relate to possible using by russian military forces of the unconventional weapons against Ukrainian citizens. Since such threat is not excluded from kremlin's plans, we should be prepared to any scenarios.

Availing myself of this opportunity, please, accept the assurances of my highest consideration.

Enclosed: on 2 pages

Yours sincerely,

Vsevolod CHENTSOV
Head of the Mission

Брюссель, март 2022

Уважаемый Комиссар,

Позвольте мне в очередной раз подчеркнуть крайнюю важность Вашей ежедневной деятельности и выразить признательность Вашей команде за стремление найти решение в сложившейся критической ситуации с соответствующими гуманитарными последствиями крупномасштабной российской военной агрессии против Украины.

В данном контексте я бы хотел передать просьбу военной администрации города Киев, которая включает средства эффективной защиты населения города Киев от дальнейшей российской агрессии. Все перечисленные элементы связаны с возможным использованием ВС РФ средств массового поражения против граждан Украины. В связи с тем, что данная возможность рассматривается в Кремле, мы должны быть готовы к любому сценарию развития событий.

Пользуясь возможностью, пожалуйста, примите заверение в моём глубоким уважении.

Dear Sirs!

Kyiv City Military Administration, according to the difficult situation caused by the military aggression of the Russian Federation, asks for humanitarian aid to ensure the protection of the population of Kyiv.

Today there are urgent need for the following material resources:

- personal dosimeters - 7000 sets;
- filter gas mask with a combined filter for protection against hazardous chemicals and combat poisons with a bag for transportation (gas masks with panoramic mask type Drager DHS-7000, CM-6 or SGE 4003, which meet ISO 9002 quality standards, and filters to protect against toxic warfare agents, radioactive, hazardous chemical and biological substances that meet the European standard EN141 (DSTU EN-14387 Ukr.) and have 3 efficiency classes - 7000 sets;
- suits of chemical protection for protection against hazardous chemicals, radioactive and biological substances complete with protective boots and gloves (such as a special individual set of radiation chemical protection of the rescuer (protective clothing) SSHKZR-II) - 7000 sets;
- dosimeter - radiometer - 1000 sets;
- respirators for protection of respiratory organs from radioactive dust (type FFP1, FFP2) - 5,000,000 units;
- decontamination cabin for special treatment (decontamination) of rescuers one-segment (type DK-1 complete with open and closed tanks - 500 liters., pumps for water collection and supply, pump for deployment) - 200 sets;
- kit for mass decontamination (special treatment) of the population during emergencies (80 people per hour) - 10 kits ([https://www.hdtglobal.com/product/company-mass-casualty-decontamination system/](https://www.hdtglobal.com/product/company-mass-casualty-decontamination-system/));
